

What did we eat?

Try out some Stone or Iron Age recipes. Early man was a hunter gatherer. Meals would mainly consist of meat and things that could be foraged, like fruit. How did their diet change once they became farmers?

What would Bear Grylls do?

Bear Grylls is famous for his survival skills. Imagine that Bear is making a film about Stone Age Survival. What 'Top tips' could you give him?

Design an outfit

What did people wear during the Stone and Iron Age? What materials were people able to use? How did they keep warm, protect themselves etc?

Design an outfit using materials that were available.

Design a Stone Age Hill Fort

What would you include? It is important that your fort keeps you and your community safe. How will you do this?

You could show your ideas by drawing and annotating your design or by making a small model.

Mystery Home Learning Task

Use your imagination and come up with an idea of your own.

Design a shelter

People in the Stone Age needed shelter to keep them warm and dry and protected from wild animals; to be able to hunt and find food and to be able to make clothes to keep them warm.

You could draw or build a shelter outside. Please take a photo to show us what you have made.

Take your Sprite on an adventure

Research some interesting facts about the Stone and Iron Age and make a quiz using Scratch. Share it with the class.

Make a sediment jar

<https://www.tjswcd.org/wp-content/uploads/2020/10/DIY-Sediment-Jar.pdf>

Ice Age

When was the Ice Age? How did humans and animals living through it have to adapt?

Research and tell the class how the weather in these parts of the world changed the planet and those living on it.
